

Brian,

More than one million people a day rely upon reviews to research, compare and connect with healthcare professionals. Reviews provide consumers with the information they need to make informed decisions about a provider's experience and patient satisfaction.

If you've been into our clinic recently, you've noticed a post-appointment text message asking you to rate us 1-10. Followed by a prompt to write a Google Reviews or Facebook review. While the 1-10 reviews give us good intel on how we are doing, it's the written reviews that **REALLY** matter.

THIS IS WHERE YOU COME IN...

These written reviews not only help guide new patients to us, it helps YOUR Insurance company ensure you have quality providers to choose from.

If you are pleased with the care you've received from our office, we would be grateful if you would share that information with others by leaving a review on [Google](#) or [Facebook](#). It's quick, it's easy, and means a lot to us!

Your friends from, **Spokane Chiropractic**
